This is the season for good Hus-  
 bands to lop and prune superfluous  
 Branches from Fruit-trees: Un-  
 cover their Roots: set all kind of  
 Quick-sets and Fruit-trees, in the  
 New of the Moon. Be sure the  
 Wind be not North nor East; and  
 set the same sides to the South and  
 West, which grew at the first. Set  
 Beans, Pease, and Parsnips: The  
 weather mild, and Moon decrea-  
 sing. Dig Gardens: Drench weal  
 and sick Cattle, Kine, with Verjuce  
 Horses with Water and Ground  
 Malt, sodden with a little Bran.

In this Month let not Blood nor  
 use Physick unless necessity con-  
 strain thee; beware of taking cold;  
 for Rhumes and Fluxes do much in-  
 crease this Month: Its hurtful to  
 fast long, to drink White Wine fa-  
 string is good. Use Meats that are  
 moderately hot, for the best Physic  
 is warm diet, warm Cloaths and a  
 merry honest Wife.

This is the season for good Hus-  
 bands to lop and prune superfluous  
 Branches from Fruit-trees: Un-  
 cover their Roots: set all kind of  
 Quick-sets and Fruit-trees, in the  
 New of the Moon. Be sure the  
 Wind be not North nor East; and  
 set the same sides to the South and  
 West, which grew at the first. Set  
 Beans, Pease, and Parsnips: The  
 weather mild, and Moon decreas-  
 ing, Dig Gardens: Drench weal  
 and sick Cattle, Kine, with Verjuce  
 Horses with Water and Ground  
 Malt, sodden with a little Bran.

In this Month let not Blood nor  
 use Physick unless necessity con-  
 strain thee; beware of taking cold;  
 for Rhumes and Flegms do much in-  
 crease this Month: Its hurtful to  
 fast long, to drink White Wine fa-  
 sting is good. Use Meats that are  
 moderately hot, for the best Physic  
 is warm diet, warm Cloaths and a  
 merry honest Wife.

 (opened in *December* and *January*)  
 with fat Earth, sow Oats, Barley,  
 Parsnips, Onions, Carrots, Melons,  
 Cucumbers, and kind of Pot  
 herbs. Slip Artichokes and Sage  
 and sow all manner of Garden  
 Seeds.

Now advise with the honest and  
 able Astrological Physician; it is  
 good to purge and let blood; and  
 in this month the humours and  
 blood encrease, and gross feeding  
 breedeth gross blood and humours;  
 therefore use meats of good diges-  
 tion, and such afford good juice  
 and nutriment to the body: for-  
 bear all things salt, purge the blood  
 by potions and bloodletting; sweet  
 meats and drinks are commendable;  
 be sure to eat in the morning before  
 you drink.

At the Full of the Moon the  
 Month and next, gather your  
 Herbs to keep dry for the whole  
 year. Set Rosemary and Gilliflow  
 ers, sow Lettice and Raddish, three  
 or four days after the Full, and they  
 will not run to Seed. Shear your  
 Sheep, the Moon increasing. Take  
 heed of cutting Herbs or Flowers  
 with Knife, but rather gather them  
 with your Fingers.

Let honest moderate Labour and  
 Exercise procure your Sweat. Use  
 thin and light Diet, and cheerful  
 Thoughts, tend to Health. Do not  
 stand unadvisedly on the Ground,  
 nor over-hailely drink.

Distilling of Roses, and making  
 of Syrrups and Conserues are now  
 in prime. Use a light and thin  
 Diet, for the Stomach is weaker  
 now than in the former Month.  
 Clarified Whey boyled with sweet  
 Herbs, are very wholesome.

Now with thankfulness reap your  
 desired Harvest: sow Winter Herbs  
 in the New of the Moon. Expect  
 fair weather as precious, and m  
 pend it not. Gather Garden-seeds  
 near the Full. Use moderate Diet  
 forbear to sleep presently after me  
 Take heed of sudden cold after  
 heat.

Beware of Physick and Blood  
 letting in the Dog days, if the Air  
 be hot; otherwise, if occasion require,  
 you may safely make use  
 thereof. Now moderate Diet is best  
 beware of Surfeits, Heats, and  
 Colds, for Plurisies are engendered  
 thereby. Use not to sleep much, e  
 pecially in the afternoon, for this  
 brings opilations, headach, agues  
 and Cathars; and all notorious disorders  
 of the same kind. Red  
 Wine and Claret are excellent Re  
 medies for Children against the  
 Worms.

Full Moon the 25 day, 42 min. past 8 morning.

**D O R O S** Sow Wheat and Rie, remove young Plants and Trees about the New Moon, observing this as a seasonable Secret, that in setting you carefully place that side to the South and West which were so before you took up the Plant; otherwise the cold kills it. Gather your remaining Winter Fruit, set all kinds of Nuts and Acorns, and cut Rose-trees but once in two years if you intend to have store of Roses.

The Garments you last Month hung on your backs in jest, now Button them close in good earnest. Cloath you now for prevention, for the cold comes insensibly, and Fogs oftentimes begets a whole Winters cold. Consult with your Tailors, as well as Physicians.

## A description of the four quarters of the Year.

The **SPRING** quarter begins this year upon **Monday MARCH** the 10th 15 min past 8 in the morning which time the Sun enters the Equinoctial Sign Aries, making an equality of Day and Night all the Habitable World over. **SUMMER** Monday **JUNE** the 11th at 2 of the Clock before noon the Sun then approaches our North and enters the first Sign of the Tropical Sign Cancer, making longest days with us and shortest nights. **AUTUMN** begins when the Sun touches the first Sign of the Equinoctial Sign Libra, which this year will be upon **Thursday SEPTEMBER** the 13th 29 min past 3 in the morning, again equalizing both day and night. **WINTER** begins **Tuesday DECEMBER** the 13th 2 Min past 8 afternoon, the Sun then touches the first Sign of the Tropical Sign Capricorn, making the shortest day and longest night in the year on this Northern side of the Equator, as also the longest day and shortest night to those parts that inhabit the Southern part of the World.

## Of Eclipses hapning this present Year 1633.

There will be three Eclipses this Year, one of the Sun and two of the Moon, but not visible to us here in **ENGLAND**.

The first will be of the Sun on **JANUARY** the 17th at three of the Clock afternoon, visible with us if the Air be clear.

The Second Eclipse will be of the Moon on **FEBRUARY** the 1 day about three Clock in the Afternoon.

The third and last Eclipse will be on **JULY** the 28th at eight Clock before noon.
